

Free Nest Thermostat – Limited Time Offer

Get a **free** Nest thermostat with the purchase and installation of a furnace.

Don't wait - the estimate must be scheduled by December 15.

Your thermostat controls half of your energy bill – more than appliances, more than electronics. So shouldn't it help you save energy? These thermostats pay for themselves by programming themselves to your schedule and cutting your home energy costs. You can control your temperature no matter where you are and they turn themselves down when no one is home.

Install a single stage furnace and get the beautifully designed Nest Thermostat E.

The frosted display shows you the temperature when you're close, and disappears when you walk away.

Install a two-stage or higher furnace and get the Nest Learning Thermostat.

A bright, high-resolution display with premium metal rings designed to fit into your home. It lights up to show you the temperature, weather or time.

If you install a new air conditioner, you will receive the thermostat based on the model of your furnace.

- The estimate must be completed by December 15
- This offer cannot be combined with any other offer
